MAS 966: Meaning Machines  
Week 4: Events

Readings

Assigned: Monday, March 1, 2004  
Response due: Noon, Monday, March 8, 2004

Email response to dkroy@media.mit.edu with subject “MAS 966 Week 4”

Q1. Generate the x-schema representation of “He put the marbles in the cup and slid the cup across the table”. What are some of the inferences that your x-schema representation supports?

Q2. How would the same sentence be represented using Siskind’s approach? What kinds of information are captured in Siskind’s representation but not Narayanan’s, and vice versa?
