

Holography Lab checklist / report form

Please report all accidents, lack of chemistry, or other unusual lab conditions to either your TA, Colleen Capodilupo (from 9 - 6 Mon-Fri, x3-0632), or by sending email to <mas450-staff@media.mit.edu> .

date and time:

TA:

students present:

chemistry used: (type, amount, how much left)

Lab Checklist :

Optics put away

Fluorescent lights on

Table cleared

Hot glue gun off

Laser off

Trash thrown away

Light meter off

Any chemicals cleaned up

Safelights off

Collimators covered

Ventilation turned back on

Darkroom Checklist:

Trays washed and clean

Safelights off

Sink washed down with sprayer

White lights on

Lab coats put away

Gloves put away

Rinse water turned off

Empty chemistry reported

Remember, developer is the only chemical you should as a rule be putting in the waste container. All other chemicals can be reused and should be put back in their storage container (use filtered funnel when available). **Do not pour chemistry down the sink!**

Accidents, incidents, or other comments: (use back if needed)
