September 18, 2013

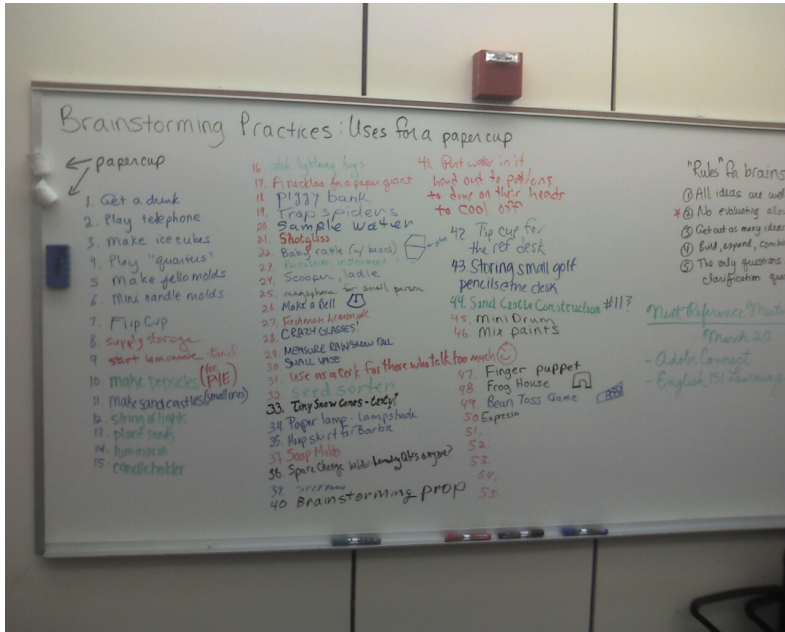

Tangible Interfaces, Fall 2013

# About Me

- Born in Russia
- BA in Bioengineering
- MA in Electrical Engineering: Embedded systems
- 2 years work on development of wearable medical devices
- Research interests: ubicomp, sensors, wireless comm
  
- 1<sup>st</sup> year grad student in Media Lab Responsive Environments

Goal: making brainstorming more effective

# Brainstorming Using Whiteboard

Distilling ideas

Criticism

# Previous Work

NOOT, 2011

IdeaVis

# Idea Spheres

- Distilling: can be physically manipulated
- Everyone has access
- Physical things are criticized instead

# Operation

# Operation

After set time two scenarios can  
happen...

# Operation

Case 2: idea is saved

# Operation

Case 1: idea expires –  
sphere is recycled

# Idea Spheres

It is a RFID tag

# Sphere Launcher

Thank you, questions?
